

DATA SHEET

Nimrod Deccox[®] 25

Presentation	A medicated premixture containing Deccox to provide 25 grammes of Decoquinatate BP (Vet) per kilogramme.
Uses	For the manufacture of medicated feedingstuffs for the treatment and prevention of coccidiosis in lambs and calves.
Instructions for use	<p><i>Treatment of coccidiosis in calves and lambs, and prevention of coccidiosis in lambs.</i> Incorporate Nimrod Deccox 25 in feed at a rate of 4 kg per tonne to provide decoquinatate at a concentration of 100 mg / kg feed (100 ppm). If creep feed is given to lambs on a restricted basis or if calves are fed less than 500 g per 50 kg bodyweight daily, the rate of incorporation should be raised proportionally to achieve the target intake of approximately 1 mg / kg bodyweight daily. Feed medicated with Nimrod Deccox 25 should be given continuously for 28 days when coccidiosis is expected to be a hazard. It may then continue to be given if there is a further hazard identified beyond this period.</p> <p><i>Prevention of coccidiosis in calves.</i> Incorporate Nimrod Deccox 25 in feed at a rate of 2 kg per tonne to provide decoquinatate at a concentration of 50 mg / kg feed (50 ppm). If calves are fed less than 500 g per 50 kg bodyweight daily, the rate of incorporation should be raised proportionally to achieve the target intake of approximately 0.5 mg / kg bodyweight daily. Feed medicated with Nimrod Deccox 25 should be used continuously for at least 28 days when coccidiosis is expected to be a hazard.</p>
Contra-indications and warnings	<p>Withdrawal period: nil. Not for use in animals producing milk intended for human consumption. When handling Nimrod Deccox 25, prevent its direct contact with the skin, avoid inhaling dust and wash hands afterwards.</p> <p>This product should be incorporated in feed only by Registered Manufacturers of Medicated Feeding Stuffs.</p>
Legal category	Medicated premixture.
Package quantities	4 x 2-kg pail.
Marketing authorization no.	Contains Deccox Vm 21766/4003.
